

OUR COMPANY

www.axiscomputing.com.au

Axis Computing commenced delivering technology support to our Customers in 1986. Since then we have grown to now support over 35 locations in Australia and 15 in New Zealand.

AXIS Computing is a modern, flexible IT Service Delivery company geared to deliver results on time and on budget whether it be a Support Call, a project or a medium-term resource placement.

Mission statement

We consider our Customers as our business partners and work on a relationship model to ensure open and honest communications at all times. Our mission is to never lose a Customer due to dissatisfaction with our efforts or the quality of our workmanship.

Our values

We are committed to working with our Customers to ensure that :-

- Our Customers are our foremost focus
- We listen carefully and work as partners with our Customers
- We do not make promises that we cannot keep
- Our key Customers have been with us since our formative days which is testament that our desire for excellent relationships and affordable solutions is a winning formula.

What makes us different ?

We are :-

- Friendly
- Dedicated
- Knowledgeable
- Reliable
- Responsive

Our customers will attest that AXIS will always 'go the extra mile' to ensure success in every task we undertake. To fail is not an option for AXIS – we have repeatedly proven this in our 30 years of delivering exception service at competitive prices.
